

Town of Whitchurch-Stouffville Water Quality Policy

The Corporation of the Town of Whitchurch-Stouffville owns, maintains and operates the following Class I Water Distribution Systems as described in the Drinking Water Systems Regulations O. Reg. 170/03 annual report for the:

- Community of Stouffville Water Distribution System
- Ballantrae/Musselman Lake Water Distribution System

Staff associated with the Town's water distribution systems are dedicated to the Water Quality Policy and the Quality Management System.

The Town of Whitchurch-Stouffville shall:

- Ensure a consistent supply of safe, high quality drinking water for its residents & businesses
- Keep open communication between Town Council, Staff and the Public concerning matters of drinking water quality
- Sponsor continuous Staff development and training
- Continually review and improve on its Quality Management System
- Operate and maintain the water distribution systems to meet or surpass applicable legislation and regulations
